

Program Specific Outcomes:

A graduate of the Electronics and Communication Engineering program will demonstrate::

PSO1: Professional Skills: The ability to apply core concepts in Electronics and Communication Engineering to design, analyze, and implement complex systems in emerging areas such as IoT, Artificial Intelligence (AI) & Machine Learning (ML) in communications, Robotics, VLSI, Embedded Systems, Analog & Digital Electronics, Next Generation cellular networks and Signal Processing.

PSO2: Competitive Skills: The ability to leverage acquired technical knowledge to excel in competitive exams at national and global levels and build a successful career in diverse technological fields.
